ABOUT US

Arbhu Enterprises is an Indian entity Head Quartered in Chennai, India. With over a decade of manufacturing experience and three years of export experience, we aim to build trustworthy and mutually beneficial partnerships by offering our premium range of high quality biodegradable and organic tableware products. We believe in offering choices that reduce carbon footprint and positively impact the environment, thus helping to build a sustainable future for the generations ahead.

OUR PRODUCTS AND SERVICES

EXPORTER OF HOME AND LIFESTYLE GOODS FROM INDIA

Arbhu Enterprises Pvt. Ltd offers a wide range of eco-friendly products that include palm leaf plates, birch wood cutleries, bamboo straw, bamboo toothbrushes with charcoal bristles and cold pressed organic coconut oil. Each of these are manufactured in specific facilities in rural villages of India. We follow a sustainable manufacturing process that minimizes negative environmental impacts while conserving energy and natural resources.

Our team focuses on precision and rigid quality control. We offer end to end manufacturing, white labeling, packaging and export shipping to our clients spread across the world. We also offer custom packaging, branding and photo-shoots of your products.

OUR QUALITY INSPECTION PROCESS

QUALITY CONTROL BEFORE MANUFACTURING

Level 1 - The first level of quality control starts with the procurement of leaves. Whether it's part of a leaf collection in our farms or purchasing it from local farmers, our procurement team ensures that we get best quality leaves having no fungus or any major defect.

Level 2- When the leaves reach our storage center, our team segregates them again and keep them stacked for future use.

QUALITY CONTROL DURING MANUFACTURING

Level 3 - When the leaves are taken out from the storage center, during the process of washing our trained workers accept or reject the leaves.

Level 4 - After the manufacturing process, our trained workers segregate plates to identify any defects occurred during the manufacturing.

Level 5 - A senior manager does the segregation again before it goes for packing.

Level 6- The packaging team is also trained to segregate the plates into AA and AB grades.

QUALITY CONTROL AFTER MANUFACTURING

Level 7- Internal inspection team evaluates the complete order which includes quality, packaging and the box count.

Level 8- We accept final inspections by our clients through third party agencies.

OUR SUCCESS STORIES

We have successfully served clients from over seven countries. The quality of our products and services make us stand out of the crowd. Our case studies and testimonials are proof that we deliver what we promise.
